### ANNOUNCEMENTS.

#### FOR SHERIFF.

We are authorized to announce E. A. Kage as a candidate for sheriff of Cape Girardeau county, subject to the will of the Republican primaries or convention as the central committee may elect.

#### FOR TREASURER.

We are authorized to announce August Lide as a candidate for treasurer of Cape Girardeau county subject to the Republican primary or convention.

#### FOR ASSESSOR.

We are authorized to announce J. F. Caldwell for re-election to the office of county assessor, subject to the Republican primary or convention.

#### FOR PROSECUTING ATTORNEY.

We are authorized to announce Orren Wilson as a candidate for prosecuting attorney of Cape Girardeau county, subject to the Republican primary or convention.

If you Democratic friends wish to preserve the honor and dignity of the office of governor of Missouri they will nominate neither Folk nor Hawes.

You fellows who are opposed to bosses and slate making quit your juggling and if you want an office run for it. Announce yourself and risk your carcass with the "common folks."

CYRUS P. WALBRIDGE is receiving endorsements for governor from the majority of counties in the state. As it seems now he is the choice of the Republicans for that position. Cape county is for him.

If the Republicans have a primary it will take a hustler to defeat Orren Wilson for the nomination for prosecuting attorney. He will see those people that the Republican committee on resolutions want to have a show—the "common folks."

We have heard many comments on the appropriate speech made by R. M. Sawyer, when taking his seat as permanent chairman of the Republican convention February 25. We desire to inform you that Mr. Sawyer is capable of making a good speech. He could speak well in the general assembly of Missouri.

THAT committee on resolutions at the last Republican convention in order to give the "common plain people" a real good show should have gone one step further and in addition to declaring federal, state and county officials ineligible as delegates to conventions they should have said "and any other person who has been a delegate twice to any convention." There are certain persons of Cape, Byrd and all other townships in the county who have been seen on every delegation ever sent anywhere. Give the "common folks" a show.

### Farm for Sale.

### From Lovejoy.

Plenty of mud and rain.

Ed Hope has been confined to his bed for several weeks with pneumonia, but is on the mend. Mrs. Diamond of this place is on the sick list.

There is considerable diphtheria around here. James Williams' little is very sick with it.

Farmers are beginning to repair fences, and are getting ready to sow oats.

The crippled place on the railroad track below Lovejoy is fixed and the trains are passing over.

Marion Craft will soon move from this place to a farm near Whitewater that he rented from James Clingman. Marion is a good farmer and will make the people a good neighbor.

Hog sickness is still getting its work in around here.

The dogs made a raid on T. B. McLain's sheep one night last week, killing five. Tom claims that one dog did all the killing.

Uncle Dave on the hill has bought a new buggy. We think he is fixing to take a trip to Jackson and take with him a widow, but she will not be a widow when they come back.

### Duck Pond.

### Facts About Jesse Belle Mine.

The Jesse Belle property consists of forty acres. There are four big ledges from four to eight feet wide, running parallel through the entire length of the property.

The main shaft is now 210 feet deep. Streaks of rich ore are frequently found, and the general character of ore is getting better with depth. The ledge is getting wider with depth—being nine feet wide at bottom of shaft.

The ore is getting softer, and every indication leads us to believe that another hundred feet will reach the big body of high grade ore into which the four ledges converge.

As a mining proposition there is nothing more promising than the Jesse Belle.

I believe that as an investment it is as safe as the average business offers, and the possibilities are unlimited.

Arrangements are being made with a machine man to build a smelter on the property. When this smelter is completed and the shaft down 100 or 200 feet deeper this stock will be worth many times the present price.

To those who can spare a few dollars and would like to make their savings work for them, I recommend Jesse Belle stock.

I will give any man a free trip to California who will get up a subscription for 4,000 shares of Jesse Belle stock; and if the property is not as represented, I will return the whole amount paid for stock. Address all communications to
